

AMENDMENTS TO THE SPECIFICATION

Please amend the Abstract as follows:

~~The present invention aim at providing a magnetic tape cartridge, which can be assembled using an automated products line by enabling the assembling operation of a spring member and a slide door with ease.~~

For attaining these problems, there is provided ~~a~~A magnetic tape cartridge comprising a ~~magnetic tape cartridge comprising; having~~ an opening provided on one side wall of a cartridge case, ~~and is used for tape drawing;~~ a slide door slidably supported by a guide part disposed along ~~said the~~ one side wall, ~~and said the~~ slide door is used for achieving ~~the a~~ shutting-and-opening operation of ~~said the~~ opening; ~~a spring member for impelling said.~~ A spring member impels the slide door to the shutting direction side, and is placed on said guide part; and a leading part for leading one end part of said spring member to a spring engaging part provided on said slide door, and is provided at one end part of said spring member and is provided with a supported part. A spring supporting part retains the supported part. The spring member is retained by the spring supporting part through the supported part and impels the slide door to the shutting direction side.
